

Centurion Maintenance Options

Caring for Your Hardware and Software

Centurion products are easy to use and consistently save you time and money.

You want to talk to an expert.

Regular updates and enhancements to the software ensure proven protection in the evolving IT environment.

You require the latest protection.

New products are developed and launched to meet future needs.

You appreciate discounts.

With Centurion's maintenance options, you determine how you would like to receive access to live technical support from our expert support staff, download new releases directly from the Web site, or receive online support.

Choose from:

Annual Maintenance Plan
(*BEST VALUE!*)

• **Manufacturer's Technical Support:** contact experts by telephone, email and Internet.

• **In-Version Updates:** download new releases directly from the Web site.

• **New Product Discounts:** upgrade to future Centurion products at a discount.

• **Hardware Components:** replace CenturionGuard® parts and/or complete unit beyond the standard 3-month warranty.

Per-Incident Premium

Receive one-time access to Centurion product downloads, online or live technical support. Available online using credit card payment.

Contact us to find out how you can relax with Centurion's software and hardware maintenance options.
